

ADHESIVE SPECIFICATIONS GIA

DESCRIPTION

GIA is a hot melt adhesive formulated as a cap liner adhesive.

USE

Specifically formulated cap liner adhesive.

FEATURES

- Exhibits excellent adhesion to plastic and difficult to adhere substrates
- Significant heat resistance
- Machines well

PHYSICAL PROPERTIES

TYPE

Modified Synthetic Resin

INTEGRITY

750 - 950 cps @ 338°F

VELOCITY

Slow

APPLICATIONS

338°F

FEIGNING

288°F Ring and Ball

COLOR

Off white

SHELF LIFE

Twelve (12) months. Do not store at high temperature. Keep container covered when not removing adhesive. Do not allow hot adhesive to contact skin. See SDS for details.

FDA

Meets composition requirements of indirect food additives Regulation 21 CFR 175.105 "ADHESIVES".
